The following is the explanatory statement as required by the Listing Rules, to provide requisite information to you for your consideration of the Buy-back Mandate.

The circular also constitutes the memorandum as required under Section 239(2) of the Companies Ordinance.

The Directors believe that the Book debts represented by the trade receivables shown in the balance sheet are collectible in the ordinary course of business and that the carrying value of the debts will be realised in cash for at least the amount at which they are stated in the balance sheet. The Directors believe that the Book debts are not impaired and that no provision for doubtful debts is required.

Book debts are assigned as security for all liabilities of the company to the bank which will be secured by a debenture over the assets of the company. The debenture provides that the company shall not sell or otherwise dispose of the book debts or any interest therein without the prior consent of the bank.

There are certain covenants relating to maintaining certain financial ratios and limiting capital expenditure. The bank has agreed to waive compliance with these covenants for the year ended 31 December 2023 and the directors have received confirmation that the bank will not require repayment of the loan before its scheduled maturity date.

The principal risks and uncertainties facing the Group are considered annually by the Board of Directors as part of the strategic planning process. The principal risks and uncertainties facing the Group are set out on page 12.
